## PROFILE

Final year Information Technology student and big data analyst enthusiast seeking for a training and career opportunity in Information Technology and Data Analyst field in a forward thinking, professional and supportive organization for me to further develop and strengthen my knowledge and skills in the field as well as providing exposure on new and emerging trends in the industry and thus allowing me to provide an active and meaningful contribution as a part of the team and organization that I am in.

## EDUCATION

**BACHELOR OF INFORMATION & COMMUNICATION TECHNOLOGY :  
MAJORING IN BUSINESS INFORMATION TECHNOLOGY : SPECIALIZED  
IN BUSINESS INFORMATION ANALYTICS**

International Islamic University Malaysia (IIUM) | 2018 - Current

**FOUNDATION : ENGINEERING & COMPUTER SCIENCE**

IIUM Foundation Centre - Petaling Jaya, Selangor | 2015 - 2017

## PROJECTS

### BUSINESS DATA ANALYTICS

Lead a team in running analysis on sales performance and business process of a local SME. Forecasted upcoming years sales figure based on sales data and came up with recommendations to improve the sales performance over the forecasted figures.

### BUSINESS IMPACT ANALYSIS AND BUSINESS CONTINUITY & DISASTER RECOVERY PLAN

Took up role as project manager for a case study of a customer goods supplier company. The team successfully identified key business processes and functions and performed BIA based on the identified processes. A report was produced highlighting the process interdependencies, potential disaster, impact of the disruptions and business recovery objective and requirements.

### DATA MINING

Collaborated with a team from Bridgewater College, USA to identify the correlation between visitors arrivals into Italy and Australia with the respective country's unemployment rate before, during and after Covid-19 pandemic.

### APPLICATION DEVELOPMENT

Managed and lead a team to develop a system for IIUM students to find and apply for in-campus based jobs. The system provides in-campus employers a hassle free digital solution to advertise job openings and move away from traditional memo board advertisement which is time consuming and not cost effective. For students, they can easily see if the job advertisement is still active and directly apply for the job through the system.
